

# 100-foot solar-powered container for field operations

## Overview

---

Our Hybrid Solar Container offers unmatched scalability and precision for operational needs, making it an ideal choice for army bases, disaster relief zones, and remote off-grid requirements. Preconfigured solution that combines solar energy integrated with hot water storage. The ZSC 100-400 can save up to 108 tons of CO2 annually as compared to similar range of diesel generators with virtually no fuel consumption. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client. We make mobile solar containers easy to transport, install and use. It's road-ready and quick to. Designed for rapid deployment and all-terrain applications, this self-contained solar system delivers reliable off-grid power to areas where conventional infrastructure is limited, damaged, or non-existent. It's optimized for grid-tied setups requiring continuous and stable output. Join us as a distributor! Sell locally — Contact us today! Submit Inquiry Get.

## 100-foot solar-powered container for field operations

### Instant Off-Grid(TM) Shipping Containers with Solar and Batteries and AC+

We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.
