

100M photovoltaic panel specifications

Overview

r superior performance and durability. Key Features: Length: 100 meters
Thickness: 4mm Double insulated for enhanced safety and extended lifespan
Made with tinned copper and XLPE insulation. The GP-PV-100M Solar Module is a high-efficiency monocrystalline solar module that provides outstanding performance and cost-effective solar power for high-end off-grid and mobile applications. The Go Power! GP-PV-100M solar module is built to last and features a 25-year limited power. Green Energy Group L Green Energy Group L d. Add: 299 Xing Cheng Road, Chong Chuan District, Nantong, Jiangsu, China Tel: +86 513 66690088 / E-mail: info@eco-greenenergy. com Specifications included in this datasheet are subject t change without prior notice. Refer to our. The SR-100M solar panels are compatible with various solar energy systems, including grid-tied and off-grid setups. Solar modules must also meet certain mechanical specifications to.
