**48.0V or 51.2V**

## Overview

---

It refers to an industrial and commercial energy storage system that combines farms and renewable energy storage and is used to store excess electricity generated by solar panels during peak sunlight hours. The MEG-1000 provides the ancillary service at the front-of-the-meter such as renewable energy moving average, frequency. In Europe, agricultural companies are actively integrating renewable energy to address the dual pressures of rising energy costs and carbon emissions reduction. The equipment features energy-saving, small footprint, high energy density, and strong environmental adaptability. We all know that M is abbreviation for million and K is abbreviation for thousand. So, 1 MWh is. PKENERGY 1MWh Battery Energy Solar System is a highly integrated, large-scale all-in-one container energy storage system. 2 US\$ \* 2000,000 Wh = 400,000 US\$. We can tailor-make a peak shaving system in any Kilowatt.
