

# 2MWh Photovoltaic Energy Storage Container for Power Stations

## Overview

---

They integrate lithium batteries, PCS, transformer, air conditioning system, and fire protection system within a single container, offering a comprehensive plug-and-play solution for large-scale power storage needs. Polinovel utility scale energy storage battery system incorporates top-grade LiFePO4 battery cells with long life, good consistency and superior charging and discharging performance. With 95% efficiency, modular design, and seamless integration with renewable energy sources, this system enhances grid stability. Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase energy efficiency. Designed for large-scale renewable integration, peak shaving, and grid stabilization, it features advanced BMS, thermal management, and fire protection systems. Ideal for utility, commercial.
