

420 Photovoltaic Panel Weight

Overview

This 420W flexible PV panel features monocrystalline cells with a component efficiency of 23%. 1kg, making it lightweight and easy to transport and install. The Panasonic EVERVOLT® HK2 Black Series 420W Solar Module (Model #: EVPV420HK2) offers high performance for residential solar energy systems. This panel is designed to produce consistent energy throughout the day, even in high-temperature conditions, making it suitable for homeowners aiming to.

- Please contact us before buying.
- Maximum power point voltage of 33.

We specialize in high-efficiency photovoltaic panels under our own brand, GMA Solar, designed to meet the needs of commercial, industrial, agricultural, and institutional projects. With a strong focus on manufacturing excellence. 420W solar panels specifications may vary due to different brands. 2mm coated tempered glass, the junction box is IP68, three diodes, the conversion efficiency is 21. For detailed. ity and beautiful aesth es from Fraunhofer Institute. Electrical characteristics may vary b 569. Data and information is subject to modifications without notice © Silfab Solar Inc. The Passivated Emitter Rear Contact (PERC).
