

# 575 solar panel dimensions

## Overview

---

Dimensions: 2450 x 1135 x 35 mm (96. System Voltage: 1500 V (IEC/UL) or 1000 V (IEC/UL) \* For detailed information, please refer to the Installation Manual. \*According to the applicable Canadian Solar Limited Warranty Statement. \*Bifacial Gain: The additional gain from the back side compared to the power of the front side at the standard test condition. It depends on the mounting (structure, height, tilt angle, etc. Ø 25 mm at 23 m/s 2400 Pa or 244 kg/m<sup>2</sup> 5400 Pa or 550 kg/m<sup>2</sup> Class A. Example: 5kW solar system is comprised of 50 100-watt solar panels. Alright, your roof square footage is 1000 sq ft. Can you put a 5kW solar system on your roof?

For that, you will need to know what size is a typical 100-watt solar panel, right?

To bridge that gap of very useful knowledge needed. Engineered for high performance and durability, this advanced panel delivers exceptional power output and efficiency, making it an ideal choice for residential, commercial, and utility-scale solar installations. Manufactured by Jinko, a leading name in solar technology, these panels are designed to deliver exceptional power output and efficiency, even in challenging environmental. Schutten Module Type: STM-575-595/132-R2B Maximum Power: 575-595w Dimensions: 2278x1134x35 (30)mm Weight: 28±3% Cable Length: 300mm (+)/300mm (-) Product Certification: ISO/CE/IEC/PID FREE/INMETRO/PV CYCLE/CEC Packaging : 31/620pcs 37/740pcs . Dimensions: 2450 x 1135 x 35 mm (96.
