

# Aircraft drilling photovoltaic panel penetration machine

**LPW48V100H**  
**48.0V or 51.2V**

## Overview

---

SWMC drilling rigs are highly efficient and versatile machines designed for drilling in tough environments. Easy ways to get the answers you need. The SPV-130Y Screw Pile Driver is a versatile photovoltaic drilling rig designed for efficient installation of solar panel supports. It excels in various construction techniques, including auger rod borehole drilling in soil, DTH hammer drilling in rock. DRILL PANGOLIN & LIUTECH are teamed up to manufacture an air compressor matching KHITAN series hydraulic crawler drilling rig, reaching the drilling target of No Fastest Only Faster. Please note that Product & specification changes may apply. See brochure for more information. Unlike traditional pile drivers, they often incorporate renewable energy power sources (solar-electric or hybrid systems) to reduce. Hardrock solar pile driver can drive the pile into soil or rock to support the solar panel for solar power station system and guardrail installation, the common application is for Photovoltaic panels installation There are several type Photovoltaic rig, from manual rig, to semi-hydraulic pile. Photovoltaic Pile Driver Configuration Solar Pile Drilling Method - totally three different drilling procedure for PV drilling as following The pile driver drive the auger into soil directly by rotating, it is only for the soft ground such as soil, sand, soft clay.
