

Aussie traveller door problems

PUSUNG-R (Fit for 19 inch cabinet)

Overview

Australian conditions present unique challenges for caravan doors. The intense UV radiation degrades rubber seals faster than in other climates, while coastal salt spray accelerates corrosion of metal components. There are two problems. We have tried blocking off the gas vent to prove that is not the issue and the dust is still a major problem as it fills the van - floor, benches etc are covered in dust, more so around the. Open and separate security door and outer door. Remove screw holding lock barrel - Fig 8 STEP 3. Push both top & bottom tongues in flush with door frame. Tape up top and bottom. Came home this afternoon and couldn't unlock the motorhome's door - mechanism appears to have jammed.
