

Automatic Containerized Photovoltaic Energy Storage for Chemical Plants

Overview

The Intech Energy Container — or ECON — is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired. Each container is equipped with a photovoltaic array, a battery bank, and a generator — all custom-sized to meet the specific needs of the customer. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere.

Automatic Containerized Photovoltaic Energy Storage for Chemical

Intech Energy Container

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery bank, ...
