

# Azerbaijan electric vehicle incentives

## Overview

---

The country has introduced customs and tax incentives for the import and sale of electric and hybrid vehicles, as well as for the import of charging devices. Government incentives and growing infrastructure support this transition, aiming to reduce reliance on hydrocarbons. The country is poised to improve environmental quality and achieve a greener. The Azerbaijan Electric Vehicle Market is emerging with increasing government initiatives promoting electric vehicle adoption, such as tax incentives and infrastructure development for charging stations.
