

BESS hybrid energy storage project latest

Overview

Octopus Australia reveals plans for the 1.8GWh Hanworth BESS, Australia's largest planned battery, and acquires a solar-plus-storage project in Queensland, targeting replacement of coal-fired generation as national priority. US- and Switzerland-based energy storage specialist Energy Vault Holdings Inc (NYSE:NRGV) said its development partner in Australia has secured a long-term energy service agreement (LTESA) for a 100-MW/870-MWh battery project in New South Wales, strengthening the company's push to own and operate. According to a report from Energy-Storage. The 100-megawatt / 870- megawatt hours Ebor BESS project will provide.
