

# Barbados Energy Storage Participates in the Electricity Market

## Overview

---

Barbados has taken a major step in its energy transition with the launch of a tender to award 60 MW of capacity and 240 MWh of storage through battery energy storage systems (BESS). The process has received backing from multilateral institutions and generated strong interest from the private. Barbados has launched the second phase of its Battery Energy Storage System (BESS) procurement process, a critical step in tackling ongoing grid congestion that has stalled the growth of the renewable energy sector. The launch event, hosted by the Ministry. The Barbados National Energy Company Ltd.
