

Battery cabinet liquid nitrogen refrigeration equipment manufacturer

Overview

We manufacture Nitrogen Storage Cabinets feature advanced nitrogen purging, precise humidity control, and real-time monitoring for electronics and moisture-sensitive materials. It comes with an ESD-safe coating for enhanced durability and. Light plastic PP shell, meeting PI650 packaging requirements for class B infectious substances. Haier Biomedical is the world's complete cold chain manufacturer and solution provider covering the full range of -196°C to $+8^{\circ}\text{C}$. Samples are transferred to cryogenic tubes and packaged in boxes. Select from a variety of products below from top brands such as.

Battery cabinet liquid nitrogen refrigeration equipment manufacturing

Cryogenic Storage Systems and Liquid Nitrogen

Liquid nitrogen vessels are designed to support long-term storage of samples at cryogenic temperatures (-196°C to -210°C). The process of cryopreservation is widely used in clinical diagnostics, ...
