

# Battery manufacturing

## Battery manufacturing

---

### Why batteries and green molecules are the final pieces in the

Batteries and green molecules are essential for reaching net zero. Batteries provide short-term grid flexibility, while green molecules decarbonize hard-to-abate sectors.

50KW modular power converter

**NEW**

- Flexible Configuration**
  - Modular Design, Expanding as Required
  - Small/Light, Wall Mounted
  - Installed in Parallel for Expansion
- Powerful Function**
  - Support PV+ESS
  - Grid Support, Equipped with SVG Technology
  - On-Grid and Off-Grid Operation
- Reliable Protection**
  - Outdoor IP55 Design
  - Sufficient Protection Functions Equipped

### Producing batteries for green technology harms the environment.

Battery production uses a lot of energy, from the extraction of raw materials to the electricity consumed in manufacture. The bigger the electric car and its range,

the more battery cells ...
