

# British Energy Storage Battery Series

## Overview

---

Tesla, BYD, and CATL are the three largest suppliers of battery energy storage systems in Great Britain. Since 2020, operational capacity has increased by 509%, climbing from 1,128 MW to 6,872 MW in 2025. So far this year, more than 1,405 MW of new capacity has been commissioned, already beating the total for 2024 and putting the. With an operational battery storage capacity of 6. The UK's goals are even more ambitious. Achieving these goals seems possible. By capturing excess generation and releasing it when demand is high, they keep the grid balanced, homes powered, and the UK's energy supply secure. We've delivered some of the UK's most advanced and largest.

## British Energy Storage Battery Series
