

# British energy storage cabinet power station standards

## Overview

---

In March 2024, the British Standards Institution (BSI) released new guidelines for battery energy storage systems (BESS) in residential settings, known as PAS 63100:2024. These guidelines aim to enhance safety and establish best practices for the installation and maintenance of BESS. Note that, development was facilitated by BSI Stan the PAS reserves the right to withdraw or amend this PAS on receipt of authoritative advice that it is appropriate to do so. This PAS will be reviewed at intervals not exceeding two years.

### Home Energy Storage (Stackble system)

**Product Introduction**

- ✓ Scalable from 10 kWh to 50 kWh
- ✓ Self-Consumption Optimization
- ✓ Integrated with inverter, to avoid the compatibility problem
- ✓ LFP battery, safest and long cycle life
- ✓ Stackable design, effortless installation
- ✓ Capable of High-Powered Emergency Backup and Off-Grid Function

### Understanding the New British Standards for Battery Energy Storage

PAS-63100-2024 ensures the safe installation of battery energy storage systems in homes. Find out about guidelines to protect your property from fire risks.
