

Budapest backup power

Overview

The capacity of the BESS system can supply the entire street and decorative lighting of Budapest for four hours. The Swiss company MET Group has taken a key step in its decarbonization strategy with the commissioning of the largest battery energy storage system in Hungary. The Budapest flywheel energy storage project is making waves in Europe's energy sector, offering a game-changing solution for grid balancing and renewable integration.

Budapest backup power

Hungary powers up largest battery storage system near Budapest

Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.
