

# Burkina faso energy storage for renewable energy

## Overview

---

The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar and battery storage system. This article explores how energy storage enterprises are addressing power reliability challenges, supporting solar integration, and creating opportunity in Burkina Faso. It examines distribution and storage solutions. The aim is to increase access to clean energy by improving the rate of 8. However, the deployment of these technologies remains slow and hampered by a lack of funding and institutional capacity.
