

# Capacity of a integrated energy storage cabinet solar energy storage cabinet system

## Overview

---

Up to 35kWh capacity will definitely fits your needs. This fully integrated energy storage system features a comprehensive all-in-one design, incorporating essential switches for battery fuses, photovoltaic input, utility grid, load output, and diesel generators. 250 to 1000 kWh usable stored energy Versatile energy storage for commercial and industrial applications The demand for power, and variation in the demand, continues to increase due to end-user loads and electrification, including the proliferation of new machinery, DC charging and AI-based chips. SOFAR Energy Storage Cabinet adopts a modular design and supports flexible expansion of AC and DC capacity; the maximum parallel power of 6 cabinets on the AC side covers 215kW-1290kW; the capacity of 3 battery cabinets can be added on the DC side, and the capacity expansion covers 2-8 hours. Supports flexible installation methods to adapt to various deployment scenarios Built-in safety systems and intelligent. Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ensuring reliable performance in various environments.
