

# China s solar power generation rate of return

## China's solar power generation rate of return

---

### Wind and solar generate over a quarter of China's electricity for ...

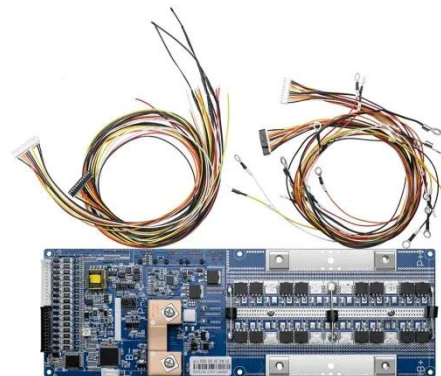

China achieved a new milestone in its energy transition, with wind and solar power together generating a quarter (26%) of the country's electricity in April 2025, the highest monthly ...

[Learn More](#)

---

### China maintains high utilization rates of wind, solar power

In the first seven months of 2024, wind and solar power generation totaled 1.05 trillion kilowatt hours, accounting for roughly 20 percent of China's total electricity generation. China's new ...

## MONTHLY CHINA ENERGY UPDATE , February 2025

massively expanding solar power capacity, China's solar power generation is showing significant growth this year. In 2024, total solar power generation increased 46.1% y-o-y, reaching ...

[Learn More](#)

## Summary of China's energy and power sector statistics in 2024

It is published annually as a March special issue of the China Energy Policy Newsletter. The Summary summarises

the annual statistics of China's energy and power supply and ...

---

## National Survey Report of PV Power Applications in China 2024

China's PV power generation reached 834.1 TWh, a 44% year-on-year increase, representing 8% of total electricity consumption and achieving a

national utilisation rate of 96.8%. China's policy ...
