

# Community-use off-grid solar cabinet-based low-pressure type

## Overview

---

Solar modules combined with energy storage provide reliable, clean power for off-grid telecom cabinets, reducing outages and operational costs. Choosing the right solar module type and properly sizing the system with a 20% buffer ensures consistent energy. MOBICELL cabinets deliver clean, autonomous power in a compact, stationary footprint — built for sites where reliability matters as much as space efficiency. Continuous power availability ensures network uptime and service quality in remote locations, even during grid failures or low sunlight. By integrating solar modules. Backup power: Supply power to the load when the power grid is out of power, or use as backup power in off-grid areas. Enhance power system stability: Smooth out the intermittent output of renewable energy by storing electricity and dispatching it when needed. □ Prices listed are for reference only. Solar power off-grid energy storage cabinet is an independent operation of solar power. The Symtech Solar Battery Energy Storage Cabinet (MEG 100kW x 215kWh) is a fully integrated, PV-ready hybrid energy storage solution designed for both on-grid and off-grid applications.

## Community-use off-grid solar cabinet-based low-pressure type

APPLICATION: Backup power: Supply power to the load when the power grid is out of power, or use as backup power in off-grid areas. Enhance power system stability: Smooth out the intermittent output ...

- LiFePO<sub>4</sub> Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- Wall-Mounted&Floor-Mounted
- Intelligent BMS
- Cycle Life:> 6000
- Warranty:10 years
