

# Construction of smart energy storage power station in mumbai india

## Overview

---

Tata Power will install a 100 MW battery energy storage system to facilitate peak load management in Mumbai's power network. - 100 MW BESS will be installed across 10 strategic locations in Mumbai over the next two years - Will ensure uninterrupted power supply to critical infrastructure such as the Metro, Hospitals, Airport, and Data Centers during grid disturbances, and will support grid through islanding to prevent. Tata Power has received approval from the Maharashtra Electricity Regulatory Commission to install a 100-MW battery energy storage system in Mumbai. The BESS project will improve power supply during grid failures, supporting key city infrastructure. The system will be centrally monitored from Tata Power's PSCC and integrated into future smart grids.
