

Cost of 20-foot Energy Storage Containers for African Ports

Overview

Breaking Down the Price Tag Let's cut through the jargon. A typical 20-foot container system (about the size of two elephants standing nose-to-tail) storing 1-2 MWh currently costs between \$300,000 to \$600,000. But wait - that's like buying a car without checking the fuel. The cost of renting a 20 foot waterproof storage container is between \$75 and \$125, and a 40 foot waterproof storage container rents for between \$90 and \$150. If you are looking to buy a waterproof storage container, you can expect to spend between \$1,800 and \$4,000, with the difference being the size. This report provides the latest, real-world evidence on the cost of large, long-duration utility-scale Battery Energy Storage System (BESS) projects. Contact GETON CONTAINERS for customized solar project solutions across Southern Africa and beyond. Our certified solar.
