

Cost of glass for double-sided double-glass components

Overview

The cost to replace glass in double-pane windows ranges from \$200 to \$600, depending on the size and configuration of the unit, as well as glass thickness and frame material. In 2025, as global attention to energy-efficient buildings continues to rise, insulated glass units (IGUs) are becoming increasingly widespread and a key component in modern window and façade systems. The price varies by region and whether the whole window or just the glass is replaced. See which factors will impact your total cost. Minor window glass repairs, such as fixing small cracks or chips, often cost under \$150, while replacing the entire glass. Includes planning, equipment and material acquisition, area preparation and protection, setup and cleanup.
