

# Current prices of solar panels in France

## Overview

---

The average cost of a residential solar panel system in France ranges between 6,500€ and 11,000€ for systems from 3 kWp to 6 kWp, including panels, inverter, mounting, labor, and grid connection. With rising electricity prices, environmental awareness, and strong government support, French households and businesses are increasingly switching to solar energy. But how much do solar panels actually cost in France in 2025?

This. For example, in Marseille in the south of France one solar panel will produce about 620 kWh per year. As the French government plans to tighten rules governing these installations, many homeowners are left wondering how much this will affect their budgets and. Average price of solar modules, expressed in US dollars per watt, adjusted for inflation. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt. But why such variatio What Determines the Price of Solar Panels?

Thinking about switching to solar but worried about costs?

Let's break it down like a Parisian baker.
