- LiFePO₄ Battery, safety*
- Wide temperature: -20~55°C*
- Modular design, easy to expand*
- The heating function is optional*
- Intelligent BMS*
- Cycle Life:> 6000*
- Warranty:10 years*

China to See Solar Capacity Outstrip Coal Capacity This Year

Rooftop solar panels in Binzhou, Shandong Province. Weimin Chu This year China will see its solar capacity outstrip its coal capacity for the first time, according to an industry group. In its ...

China: land of solar panels AND coal

China is the absolute leader in installing solar and wind power capacity, but at the same time it is also investing heavily in the construction of coal-fired power plants.

[Learn More](#)

Why China is building so many coal plants despite its solar and wind

The massive growth in wind and solar begs the question: Why is China still building coal power plants and, by most analyses, way more than it actually

needs? The answer is complicated.
