

Datun battery cabinet size base station

Overview

Standardized size: the 19-inch wide design allows it to be easily installed in standard cabinets without additional customization. The 19-inch lithium battery is a standardized design of battery module, which is mainly used in communication, electric power, data center and other fields. Wall options are with multi- or single-layer, and multi lock mechanism completes th . To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative base station energy solution. Let's dissect this silent productivity killer. In fact, a single 5G base station can consume as. This series of products integrates battery PACK, BMS system, high-voltage box, power distribution unit, temperature control system, and fire protection system.

Datun battery cabinet size base station

Compact Outdoor Cabinet for 5G & 4G Base Stations

The Compact Outdoor Cabinet for Base Station is designed to house telecom equipment in space-constrained outdoor environments. With a weatherproof and corrosion-resistant structure, this ...
