

# Development Zone Photovoltaic Energy Storage Project

## Overview

---

The proposed Discovery Solar PV and Storage Project is a photovoltaic (PV) solar facility with associated infrastructure necessary to generate up to 1,400 megawatts (MW) of renewable electrical energy with up to 8 gigawatt-hours (GWh) of energy storage capacity (approximately 1,000. The proposed Discovery Solar PV and Storage Project is a photovoltaic (PV) solar facility with associated infrastructure necessary to generate up to 1,400 megawatts (MW) of renewable electrical energy with up to 8 gigawatt-hours (GWh) of energy storage capacity (approximately 1,000. Discovery Solar PV and Storage Project by Discovery Solar PV and Storage, LLC (Terragen Solar) NOP - Notice of Preparation of a Draft EIR 7/24/2025 Generally vacant / Various Zoning: A (Exclusive Agriculture), A-1 (Limited Agriculture), PL (Platted Lands), FP (Floodplain Combining), FPS (Floodplain. Project Polo will deploy commercial-scale PV and storage to create integrated virtual power plants across 27 states. As part of the Biden-Harris Administration's Investing in America agenda, the U. Department of Energy (DOE) Loan Programs Office (LPO) today announced the closing of a \$289. 7. The UK government has granted planning consent to a 600 MW solar plant with storage. Related Resource: View SolSmart Best Practices in Planning & Zoning Accessory Use. Reaching Full Potential: LPO investments across energy storage technologies help ensure clean power is there when it's needed. The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to. The applicant is requesting a zone change with an overlay from Rural-190/Rural-43 to IND-2 IUPD on a 3,343 acre site to accommodate the development of a phased utility-scale photovoltaic solar panel electric generating facility with a battery energy storage component. This site also contains 600.
