

Dimensions of LONGi 540 photovoltaic panels

3.2v 280ah

Overview

Detailed profile including pictures, certification details and manufacturer PDF.
Detailed profile including pictures, certification details and manufacturer PDF.
Bifacial Technology Advantage: The LONGi 540W's bifacial design can increase energy yield by up to 30% compared to traditional monofacial panels, making it particularly valuable for ground-mount installations with reflective surfaces like white gravel or concrete. Superior Degradation Resistance: . 25°C
Specifications included in this datasheet are subject to change without notice. LONGi reserves the right of final interpretation. This panel takes full advantage of the Passivated Emitter Rear Contact (PERC) technology that allows it to capture up to 12% more energy. All thanks to a reflective layer on the back. Allow yourself to be captivated by the sheer brilliance of the Longi Solar 540W model, as it harnesses the boundless energy of the sun in a way never seen before. Immerse yourself in the world of unrivaled efficiency and reliability as this cutting-edge technology propels us towards a sustainable. For wholesale pricing and availability contact your local Greentech Renewables or: Let us know what you're after through this form or by contacting a location near you and we'll promptly get you a quote with pricing and local availability. Solar Panel Series Hi-MO 5 LR5-72HBD 540-560M.

Dimensions of LONGi 540 photovoltaic panels

LONGi 540-560M-WIT SOLAR POWER

LONGi LR5-72HPH 540-560M is part of the Hi-MO 5m module series. It is based on Advanced Mono PERC technology featuring p-type half-cut wafers with proven low light-induced degradation.
