

# Dominica digs deep into energy storage batteries

## Overview

---

From Wednesday 30th April to Sunday 4th May 2025, Dominica Electricity Services Ltd. (DOMLEC) will be conducting critical testing of a recently installed Battery Energy Storage System (BESS) at its Fond Colé Power Plant, as the company enters the final stages of commissioning. Dominica is taking a pragmatic step towards energy security and sustainable development, aligning with the global shift towards decarbonisation and infrastructure modernisation. Achieving this milestone signifies a significant advancement. The Dominica Schools Microgrid Project serves as a proof point for how solar and storage systems can preserve community vibrancy through bolstering energy resilience amid intensifying climate-induced hurricanes. While manufacturing of lithium-ion batteries for energy storage has scaled up.
