

EU Energy Storage Power Generation BESS

Overview

Explore 2025 BESS projects across Europe, from Germany's Na-ion advancements to France and Spain's renewable energy storage initiatives. AI-generated illustration by Battery Technology. In this second installment of our two-part series on Battery Energy. After a historic 2025, when global BESS capacity surpassed 250 GW and overtook pumped hydropower, momentum is set to accelerate in 2026. What to expect in the. At the PV & ESS Summit in Madrid, Sungrow introduced PowerTitan 3. 0, a next-generation grid-forming battery energy storage system designed to support Europe's evolving utility-scale market.

EU Energy Storage Power Generation BESS

Energy Storage Outlook: The expanding role of BESS in global energy ...

The battery energy storage market continues its rapid growth, reshaping power systems worldwide. After a historic 2025, when global BESS capacity surpassed 250 GW and overtook ...
