

# El salvador affordable solar power generation with energy storage

## Overview

---

AES' Meanguera del Golfo solar plant—the first of its kind in Latin America—relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island communities and support economic growth in the Gulf of Fonseca region of El Salvador. AES' Meanguera del Golfo solar plant—the first of its kind in Latin America—relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island communities and support economic growth in the Gulf of Fonseca region of El Salvador. AES' Meanguera del Golfo solar plant—the first of its kind in Latin America—relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island communities and support economic growth in the Gulf of Fonseca region of El Salvador. Company. El Salvador is making significant strides to expand its renewable energy capacity, with new solar and wind projects slated to come online by 2025. At the forefront of this effort is AES El Salvador, which is overseeing the full operation of its Bósforo solar project and the upcoming Capella Solar. The Law for the Promotion of the Use of Renewable Energy, approved by the Legislative Assembly in October 2025, establishes benefits aimed at generating renewable energy for self-consumption, as well as energy storage systems, their installation, operation, and maintenance. Solar energy has seen significant growth potential in El Salvador over the last six years. This article explores how these systems strengthen grid reliability, integrate renewable energy, and empower communities—all while addressing the unique needs of. We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification of the energy matrix in our. These services are provided by a team of world-class.
