

Electric vehicle range reykjavik

Overview

The Tesla Model Y is the world's most popular electric vehicle, and it has a battery capacity of 75kWh. On a full charge, this car can drive over 300 miles (480 km). As of 2022, the market share of electric vehicles in Iceland is around 60%, the second-highest in the world behind Norway. But there is a catch: once you leave Reykjavik and head toward waterfalls, glaciers, and black beaches, planning becomes essential. This. Reykjavík City, Reykjavík Energy, and Veitur Utilities reached an agreement in April 2019 for the extensive development of infrastructure in the city for electric car owners.
