

# Emergency rescue photovoltaic energy storage cabinet grid-connected type

- LiFePO<sub>4</sub>
- Wide temp: -20°C to 55°C
- Easy to expand
- Floor mount&wall mount
- Intelligent BMS
- Cycle Life:≥6000
- Warranty :10 years

## Overview

---

It adopts IP65 protection design and wide temperature range operation technology (-30°C~60°C), supports off-grid independent power supply or grid-connected surplus power return, and can be used as the main power supply in remote areas or the core node of urban microgrids. It adopts IP65 protection design and wide temperature range operation technology (-30°C~60°C), supports off-grid independent power supply or grid-connected surplus power return, and can be used as the main power supply in remote areas or the core node of urban microgrids. The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, 215kWh, 225kWh, 241kWh, etc. They can be widely used in farms, animal husbandry, hotels, schools. As a leading energy storage system supplier, Megarevo offers compact, integrated cabinet BESS designed for small C&I, hospitals, conferences, and weak power grid areas. The GGD cabinet integrates protection, control, measurement, and monitoring functions, ensuring safe, stable, and compliant connection between solar power systems and the utility grid. The local control screen can perform a variety of Space-saving: using door-mounted embedded integrated air. EK photovoltaic micro-station energy cabinet is a highly integrated outdoor energy storage device.

## Emergency rescue photovoltaic energy storage cabinet grid-connected
