

Energy Storage Lithium Battery Tender Announcement

Overview

China Huadian launched a 12 GWh energy storage tender for 2026, explicitly requiring $\geq 314\text{Ah}$ cells. The contract uniquely links pricing to SMM's lithium carbonate index to manage market volatility. With bids opening February, this tender cements 314Ah technology and SMM benchmarks as the. It has been a couple weeks since CleanTechnica published an article titled “Massachusetts's First Big Energy Storage Tender.” The tender is a result of a law on battery storage, signed by Governor Maura Healey on November 20. China's independent power producer CGN New Energy has announced the results of its 2025 procurement for lithium iron phosphate (LFP). One of the dominant state-owned infrastructure companies, China Energy Engineering Corporation (CEEC), launched a major procurement procedure on lithium iron phosphate (LFP) battery systems amounting to 25 GWh.

Energy Storage Lithium Battery Tender Announcement

What Are The Implications Of \$66/kWh Battery Packs In China?

The Power Construction Corporation of China drew 76 bidders for its tender of 16 GWh of lithium iron phosphate (LFP) battery energy storage systems (BESS), according to reports.
