

# Energy storage project buyback terms

## Overview

---

This Term Sheet is intended to set forth the key commercial terms and conditions to be included in a proposed agreement for the purchase and sale of renewable energy and energy storage product (the “PPA”) to be negotiated between SDCP (“Buyer”) and [e. THIS RENEWABLE GENERATION AND ENERGY STORAGE TERM SHEET (the “Term Sheet”) is entered into as of [\_\_\_\_\_] (the “Effective Date”), between San Diego Community Power (“SDCP”) and [Respondent] (“Respondent”). The material provides guidance for different ownership models including lease, Power Purchase Agreement (PPA), or Owner Build and Operated (OBO). It also includes contracting strategies for OBO projects. List all potential solar project sites (building rooftops, parking lots, and unused ground parcels, including brownfields) that are expected to remain in operation and be in your real estate portfolio for at least 15 years. Financing structure options for standalone storage projects and hybrid solar plus storage projects. Reading time: 10 min The financial viability of Battery. — PPAs are long-term contracts where companies buy renewable energy at a fixed price, providing price stability and helping fund new green projects. — Ideal for large, energy-intensive companies with stable demand, and increasingly popular among tech, manufacturing, and mining businesses, with the.
