Solar Photovoltaic: SPECIFICATION, CHECKLIST AND GUIDE

About the Renewable Energy Ready Home Specifications Assumptions of the RERH Solar Photovoltaic Specification Builder and Specification Limitations

- 1.5 Document the solar resource potential at the designated array location
- 3.3 Install a conduit for the AC wire run from the designated inverter location to the electric service panel
- 4.2 Record the name and Web address of the electric utility service provider
- 5.1 Landscape Plan
- 5.2 Placement of non-array roof penetrations and structural building elements

Appendix A: RERH Labeling Guidance
The Renewable

Energy Ready Home (RERH) specifications were developed by the U.S. Environmental Protection Agency (EPA) to assist builders in designing and constructing homes equipped with a set of features that make the installation of solar energy systems after the completion of the home's construction easier and less expensive.
