

# Financing for Long-Term Photovoltaic Energy Storage Battery Cabinet Projects

## Overview

---

This Practice Note discusses changes to financing structures for battery storage projects after the enactment of the Inflation Reduction Act. The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to. Battery energy storage systems (BESS) have emerged as critical infrastructure enabling renewable energy integration, grid stability, and peak capacity management. 5 trillion globally between 2021 and 2050. Consequently, sustaining progress toward a zero-emission society necessitates access to huge sums of capital and the full leverage. By Rick Labrecque, Vice President - Interconnection & Utility Affairs at Agilitas Energy

The U. battery storage sector is on a remarkable trajectory. 3 gigawatts (GW) of new utility-scale capacity was added in 2024, the U.

## Financing for Long-Term Photovoltaic Energy Storage Battery Cabinet

### ENERGY STORAGE PROJECTS

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid.
