

# Financing of Solar-Powered Containerized Automated Projects

## Overview

---

For small businesses and households, leasing or pay-as-you-go (PAYG) systems are highly effective: Customers pay for solar equipment in installments. Ownership transfers after full payment. Mobile payment platforms make it easy to manage transactions in off-grid regions. Developers, independent power producers, solar panel manufacturers, engineering, procurement, and construction (“EPC”) contractors, utility companies, financial investors and, more recently, commercial and industrial end-users all participate in the financing of solar projects in different manners. William Homza is a Solutions Engineer for Enel North America's Distributed Energy Solutions team. We believe that every organization — from developers to nonprofits — should have a partner they can trust to bring solar, storage, and EV charging projects to life Sustainable Capital. [Understanding Third-Party Ownership Financing Structures for Renewable Energy](#) - Learn more about this well-established financing model and how you can use it. [Renewable Energy Certificate Monetization](#) - How your organization can take advantage of selling the RECs that are associated with your. aligns with ESG goals, attracting responsible investors. These materials reflect only the personal views of the authors and are not individualized legal advice. It is understood that each case is fact-specific, and that the appropriate solution in any case will.
