

How to clear snow from photovoltaic panels during a heavy snowstorm

Overview

Soft brooms and snow rakes provide a safe way to clear snow from solar panels. Brooms with non-bristled, foam edges remove layers of snow without scratching the glass. Do I need to remove snow from my solar panels?

And if so, what's the easiest way to do it?

The short answer: In most cases, you don't need to do anything at all. And when snow does become a problem, the easiest way to automatically remove snow on solar panels isn't a rake or a gadget; it's smart. While the efficiency of solar panels drops in winter, proper snow removal techniques can help keep this loss to a minimum. That being said, handling panels carefully during maintenance is crucial to avoid voiding warranties or insurance coverage.
