

Huansheng Photovoltaic Panel Qualification

Overview

The standard IEC 61730 comprises the requirements for the design and the testing of PV modules regarding the qualification for the safe electrical and mechanical operation throughout their expected lifetime. In particular one differs between the following load groups: The. Huansheng Photovoltaic reserves the right to change this manual without prior notice. This installation manual provides information on the installation and safe use of photovoltaic modules (hereinafter referred to as "Modules") from Huansheng Photovoltaic((Jiangsu) Co. The carbon footprint is as low as 16kgCOe/kg,-Si. TCL Huansheng Photovoltaic Panel, relying on the dual-technology platform of "G12+High-efficiency Tiling", leads the development of the industry with differentiated routes, and ranks among BNEF global first-class photovoltaic module manufacturers. 20, WENZHUANG ROAD, YIXING ECONOMIC AND TECHNOLOGICAL DEVELOPMENT ZONE China Making the conventional, exceptional Shingled Cell Bifacial Framed Glass-Glass Large Installatio. Electrical Data, Front STC Characteristics 4 SPR- P5. Large-size module maker representative Huansheng Solar was entitled with the Best Reliability Award for its excellent performance under mild weather condition and distributed application.
