

Huawei Pakistan 100 billion energy storage project

Overview

In a landmark move towards advancing sustainable energy solutions in Pakistan, Huawei and AE Power have officially entered into a strategic partnership to bring the LUNA2000- 107kwh/167kwh/215kwh Commercial Battery Energy Storage System (BESS) to the local market. The agreement was developed in partnership with Reon Energy, and powered by Chinese-headquartered battery giant Contemporary Amperex Technology (CATL) batteries, the project marks Pakistan's largest industrial energy storage deployment to date. Whether you're a homeowner, business, or industrial facility, DSG Energy empowers you to reduce dependency on the national grid while saving on. As Pakistan targets 30% renewable energy by 2030, energy storage technologies, particularly battery energy storage systems (BESS), are emerging as critical enablers for integrating intermittent solar and wind power into the grid. This article explores the latest developments, key case studies, and.

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5
