

InfolinkPV module prices

Overview

InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends and solar panel costs with our comprehensive market analysis. Weekly spot price report for 182mm modules will be based on the 182*182-210mm format from June 2024 onwards due to the slim price gap among varying formats. BC module prices in China will be added. Solar Module Retailer Prices are updated on Monday. Through detailed survey cross-survey of data from major suppliers and procurement parties, Green Energy Research is able to provide an accurate weekly report on spot prices of key PV components. Green Energy Research can also quickly produce a detailed market analysis for a VIP client, as its staff. Our PV analyst team provide real-time data and information on solar PV market, price tracking of PV products, global PV market supply & demand database, analysis report, and other customized consulting services. Our growing team comprises well qualified analysts who have accumulated rich experience. Prices for Mono PERC, bifacial N-Type TOPCon and HJT (heterojunction) photovoltaic modules sold by China in the international market registered new falls in November 2024, consolidating a year of significant reductions in the solar energy sector. Join the Community Canal Solar on WhatsApp. • Global polysilicon spot prices rose 12% in Q1 2025, from \$5.
