

Is it illegal to hang photovoltaic panels on the upper floors

Overview

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. Unfortunately, some states make this harder to achieve with restrictions on solar energy and its financing. This article will list all the states with the. Solar, or photovoltaic (PV) panels as they're referred to in NFPA 1, Fire Code, are becoming more and more common on one- and two-family dwelling and townhouse roofs. Since the 2016 edition of NFPA 1, access pathways have been required on roofs to facilitate fire service access as well as egress. Understanding these regulations before installing solar panels ensures compliance, maximizes financial benefits, and prevents costly mistakes.
