

Is it reliable to install photovoltaic panels for free now

Overview

The federal government does not provide free solar panels, but many states and utilities offer incentives that can reduce the cost of going solar. You can install solar panels on your roof with no upfront cost by signing a lease or PPA or taking out a \$0-down loan. When something is advertised as “free,” it usually comes with a few strings attached—free solar panels are no exception. Join over 8,000 people who received a free, no obligation quote in the last 30 days. However, the federal government does not offer any programs for free home solar panel installations nor does the government require companies to grant. There's no such thing as free solar panels. Companies simply use this word to get your attention.
