

# Italian Modular Battery Cabinet

## Overview

---

The battery cabinet adopts a modular design and can be flexibly expanded; it is compatible with 320Ah large battery cell design and has higher energy density, and a single cabinet can be expanded to 393kWh; safety designs such as water and electricity separation. The battery cabinet adopts a modular design and can be flexibly expanded; it is compatible with 320Ah large battery cell design and has higher energy density, and a single cabinet can be expanded to 393kWh; safety designs such as water and electricity separation. The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries. The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and. Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. VENTILATION: Our cabinets are specially designed for the use of stationary batteries. Supports up to 28 battery modules with hot-swap design and scalable configuration. Whether for utility-scale projects, industrial applications, or.

## Italian Modular Battery Cabinet
