

JA A-grade photovoltaic panels

Overview

JA Solar panels are half-cut cell panels, a technology that increases their energy output. They also utilize TOPCon technology. JA Solar is one of the world's largest solar panel manufacturers, founded in 2005 in China. It makes photovoltaic cells, modules, batteries and other components that convert sunlight into electricity, selling them to customers globally for both residential and commercial use. JA Solar Holdings Co. JA Solar. Our diverse product solutions are already being used in a large number of centralised PV power plants, agrivoltaics and floating PV power plants.
