

Jamaica solar energy storage project construction

Overview

Power utility Jamaica Public Service Company, JPS, is investing US\$300 million to construct Jamaica's largest solar power plant and a battery storage facility, starting this month. The ADDITIONAL funding has been secured for SunTerra's largest solar venture through private equity funding building on its previous Inter-American Development Bank (IDB) investment. The project, which is being led by Mscale LLC through the Caribbean Venture Capital Fund, has taken an 10 per cent. Jamaica is set to build its largest solar park, an ambitious project that initially targets 92 MW of capacity and combines solar energy generation with integrated energy storage. This article explores its technical innovations, environmental benefits, and economic opportunities for renewable energy. News Americas, KINGSTON, Jamaica, Tues.
