

Jordan non-standard solar cabinet system recommendation

Overview

Based on the first and second editions of SolarPower Europe's 'EPC Best Practice Guidelines: Europe Edition', recommendations, these latest guidelines have been adjusted to reflect the market and business conditions in Jordan taking the unique aspects of country into account. Our joint Jordanian-European EPC working group was launched in March 2022, assembling 40 leading solar experts from Jordan and Europe. The kick-off meeting was followed by a series of online working meetings, in which we updated Version 1. The 23. Jordan's renewable energy sector underwent significant transformation in 2024. From government officials sweating over grid stability to Bedouin communities wanting reliable electricity, everyone's got skin in this game.
