

Kosovo outdoor solar power hub milliampere normal

Overview

The Kosovo Energy Corporation (KEK) is set to begin construction of a 100 MW solar photovoltaic (PV) plant, a project financed by the European Union through its Economic and Investment Plan for the Western Balkans. It will have an installed capacity of up to 100 MW and produce 152 GWh of electricity annually. The plant will be erected on the partly rehabilitated ash heaps that are no longer in use. As a. To increase the production of renewable energy and reduce the environmental impact of the coal operations for power generation in Kosovo Kosovo Energy 10/2023 - 12/2027 (incl. 66%) Korporata Energjetike e Kosoves (KEK SH.
